HAWAIIAN GAZETTE, TUESDAY, OCTOBER 29, 1907. —SEMI-WEEKLY

WHOLE No. 2950

TREASURER TRENT AND SHERIFF IAUKEA TARGETS FOR HUSTACE

**County Money Deposited to Credit
of Trent Trust Company—Investi-
gation Will Be Made—Board Bolts
Under Hustace's Handling—Police
Get Proper Appropriations.**

Sensation after sensation was sprung at the meeting of the Supervisors last night. First Chairman Hustace and Sheriff Iaukea clashed and there were warm words on the part of the former, who threatened Iaukea with the dire vengeance of the Board for something which was not specified. Then the six members took the bit in their collective mouths and ran away, leaving Hustace sitting in a minority of one and looking foolish. His turn came, however, when he threw a bombshell into the meeting by announcing that when the special committee had gone during the past week to count the cash in the treasury of the county they had found that it was for the most part deposited in various banks in the name of the Trent Trust Company and out of their reach.

The row with the sheriff came early in the meeting and lasted for almost an hour. Hustace talked loudest and longest, but Iaukea said the most. The Sheriff informed the Chairman that he was not the whole Board, while Hustace countered with the statement that the Sheriff was no gentleman. In the windup the appropriations asked for by the Sheriff were passed and even added to, the six members of the Board taking the matter out of Hustace's hands altogether, informing him that they knew just as much about the county finances as he did and ignoring his wild pleadings for them to be careful.

In the matter of the county funds, the Chairman announced that everything was no right. Public money had been taken from the treasury and deposited in a private account. He stated that the matter was now in the hands of the County Attorney who would report as to what should be done about it at the next meeting.

SHERIFF ASKS FOR MORE.

After a number of routine communications had been presented and referred to the various committees, the following from Sheriff Iaukea was presented:

Police Department.

Sheriff of the County of Oahu.
Honolulu, T. H., October 28, 1907.
To the Board of Supervisors of the County of Oahu.

Gentlemen: I desire to submit for your consideration an estimate of the requirements of the Police Department for the month ending November 30, 1907.

The requisition, which bears the approval of your Committee on Police, calls for an increased allowance of \$500. In other words, to raise the permanent payroll from \$3200 to \$3700. This will permit of the addition of seven men to the force designated for special service with salaries as follows:

Two special, detective service, at \$75	\$150.00
One transient officer (bicycle)	75.00
One assistant hack inspector (mounted)	90.00
One special officer, Ewa	60.00
One special officer, Wahiawa	60.00
One resident police, Waimanalo	35.00

\$470.00
The estimate also provides for a uniform rate of pay for all regular police in the outside districts from \$45 to \$50 a month. The raise, in my opinion, will insure better service and enable the police to equip themselves with a proper mount and uniform, a requisite of the office.

It might be stated in this connection that \$500 is not an excessive sum, for, as a matter of fact, it is \$1561 a month less than the actual allowance made the police in 1906, as the following statement will show:

Total payroll twelve months, 1906	\$81,973.85
Total payroll ten months, 1907	\$80,240.85
Estimated Nov. and Dec., 1907	13,000.00
	78,240.85

A saving to county for twelve months, 1907 \$13,733.00 || This gives the average monthly payroll: | |

For 1906 \$7,864.00 || For 1907 | 8,376.00 |

Excess, 1906 \$1,512.00 or 25% |

Now, as to specific needs and requirements.

Two Specials for the Detective Service.—It is not necessary for our immediate purpose to dwell on the effective work that has already been achieved by this arm of the service. The question now is, shall we increase the efficiency of that service by augmenting the force to something like what it should be? Besides the head of this bureau, there are only five officers available for special and detective work. Under the previous administration there were twelve paid specials. The present force is too small to keep up with the full requirements of this office. The men are overworked (being on duty from ten to eighteen hours daily) and the bureau needs the assistance of two more special officers.

Trumpet Officer.—The last Legislature

imposed on the county police the work of rounding up truants and compelling the attendance of delinquents at school. The department has taken up the work and with results, I am told, satisfactory to the school authorities. But whatever good is accomplished in this direction can only be at the expense of other and more legitimate police work, hence the request for an officer for this special service.

Assistant Hack Inspector.—There is need of this officer if the regulations governing licensed vehicles are to be more strictly enforced, especially that relating to the rule of the road. The heedless way some persons have of driving their vehicles when rounding street corners needs to be restrained. With these two officers, the inspector and assistant, constantly on the rounds, there will not be the complaints, so much heard of late, of speedy and heedless driving—at least, not in the busy and crowded sections within the city limits.

Country Police.—A special officer at Ewa, one for Wahiawa, and a resident policeman at Waimanalo will fill the more pressing needs in the outer districts. The two latter places have been without any police protection, and it is hoped that the small sum needed for this purpose will not be withheld by your board. The services of a special officer at Ewa to do detective work is a requisite that needs no special urging on my part. It is essential, and \$80 a month ought not to stand in the way of affording the police the service required.

Specific Allowance of \$500.—This is for the purchase of a road wagon and two horses. The only thing in the way of a light rig that the department possesses is the one now used by the Deputy Sheriff with a horse borrowed from some friendly-disposed person. The department should be provided with its own conveyances, for it is not always expedient in police work to have to resort to public hacks where a special destination has to be quietly reached in the investigation of certain cases. And, again, the expense saved in carriage hire would be an item in itself, sufficient to make up for the cost of keeping and stabling the two horses owned by the department.

In my opinion, it is expedient that the salaries of policemen be made payable in two instalments instead of once a month as at present. I recommend this on the ground that it will do away with the necessity of the men borrowing money for their keep during the month (as, I understand, at present rates) until pay day arrives. The extra work involved in the making out of warrants ought not to be allowed to weigh against the convenience and accommodation this change of pay days will bring to many in the service. Respectfully submitted,

(Signed) C. P. IAUKEA,
Sheriff, County of Oahu.

ESTIMATED REQUIREMENTS OF
THE POLICE DEPARTMENT FOR
THE MONTH ENDING NOVEM-
BER 30, 1907.

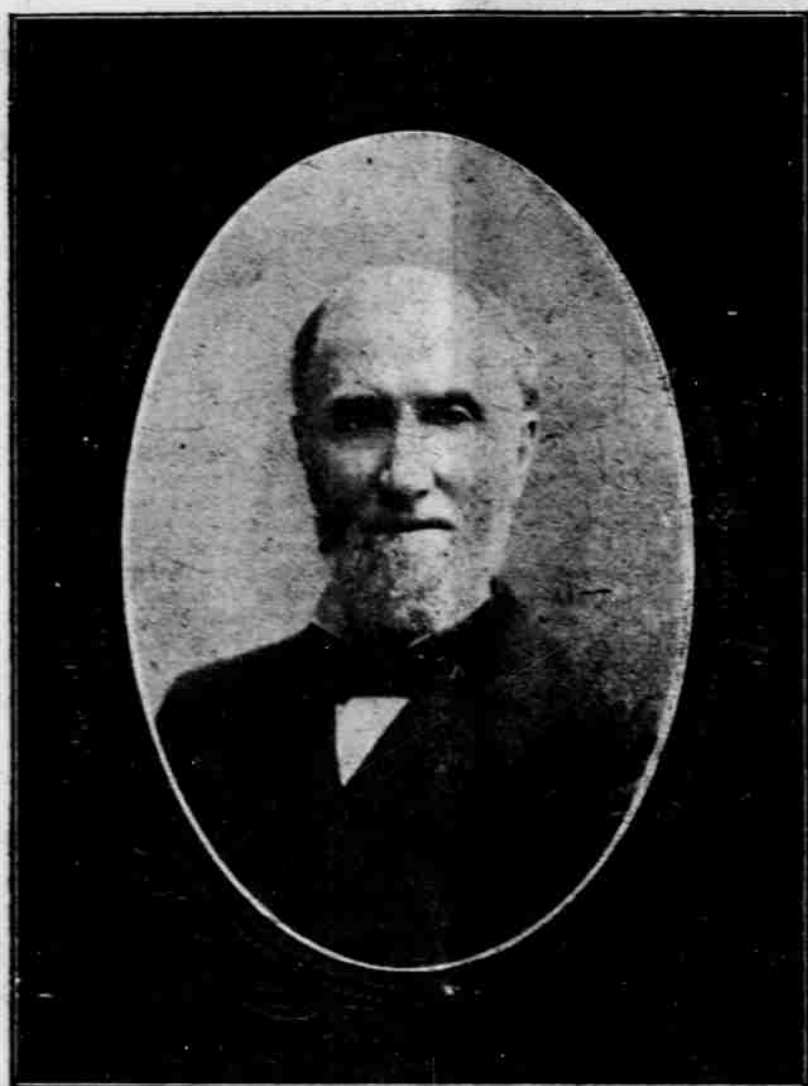

Special and Detective Service—	
One chief detective	150
One assistant	90
One Portuguese special and in- terpreter	75
One Japanese special and inter- preter	75
One Chinese special and inter- preter	75

CANNON'S BOOM HAS BEGUN IN ILLINOIS

(Associated Press Cablegram.)

CHICAGO, October 29.—The Illinois Congressmen have started their campaign in the interest of Speaker Joe Cannon for the Presidency.

"UNCLE" JOE CANNON, WHOSE PRESIDENTIAL BOOM HAS BEEN LAUNCHED.

NEW HEAD OF PUBLIC WORKS ON NOVEMBER 1

**Holloway Makes This Announcement Himself
---Much Speculation as to His
Successor.**

C. S. Holloway will cease to be Superintendent of Public Works on November 1.

This statement is made by himself, and was made yesterday to a number of persons both officially and unofficially. Holloway was asked yesterday regarding a matter in connection with the Lookout Station and replied that he would turn that over to his successor. He was then asked when he would have a successor and replied that it would be November 1, though he disclaimed knowledge of whom it would be.

Speculation began to be more active than ever yesterday as to who would be the new Superintendent of Public Works, especially after Holloway's statement that he would retire on that date became more widely known. There is a growing belief that James T. Taylor will be the man. He was at the Capitol yesterday in consultation with Secretary Mott-Smith for some time, and he has another appointment for this morning. It is known that he was consulted by the Governor in the progress of the Nuuanu dam settlement, particularly, perhaps entirely on the engineering and construction features of that work. One of the things that was gone into pretty carefully by Governor Frear was as to the probable cost of completing the dam and whether it could be completed with the appropriation made by the legislature.

As to Taylor's qualifications there can be no doubt. He has constructed a

large number of works in this territory of the first importance, and is recognized as a civil engineer of large attainments and much experience. He was one of the delegates representing the Territory at the Irrigation Congress lately held in Sacramento. Had he not been away at the time, there is every reason to believe that he would have been put in charge of the dam construction July 1, the beginning of the new financial period, and the time of the going into effect of the enactment of the legislature which was intended to throw Holloway out by abolishing the position of Assistant Superintendent of Public Works.

At the same time there is a belief growing that Governor Frear does not intend to appoint an engineer at the head of the Public Works department, but a business man and administrator, who will secure the technical skill and equipment needed in his subordinates. Coupled with the plan for a business man and administrator for the head of the department, in the discussions of which have gone on among those who think it is the Governor's intention, is the plan for an engineer of high standing to be in charge of matters requiring engineering equipment. Under this hypothesis, Taylor is talked of as the man who will be appointed the engineer of the department, and under him will come the completion of the Nuuanu dam.

In any event there is a widespread belief that Taylor will be the man who will complete the Nuuanu dam.

EXAMINER EDITOR DROPS DEAD.

SAN FRANCISCO, October 28.—John Barrett, news editor of the Examiner, died today from apoplexy.

FINANCIAL TROUBLE HAS NOW REACHED THE PACIFIC COAST

(Associated Press Cablegrams.)

SAN FRANCISCO, October 29.—The stringency in money has reached the Pacific Coast. All the banks here have decided to use clearing-house certificates and to issue no cash except for the purpose of allowing their customers to meet payrolls and for other urgencies.

PORTLAND, Oregon, October 29.—The bankers have requested Governor Chamberlain to declare five days holidays in order to allow them to get into a position to meet whatever demands may be made upon them.

NEW YORK, October 29.—Business on Wall Street is resuming normal conditions.

NEW YORK, October 28.—Twelve millions of gold have been engaged for importation to relieve the financial situation. Stocks have advanced under the influence of the efforts to relieve the market.

RENO, Nevada, October 28.—All banks of the State that were able to do so opened today. The doors of the Goldfield State Bank and Trust Company and the Nye Ormsby Bank were not opened.

Confidence prevails that quick recovery will be made.

OKLAHOMA CITY, October 28.—The Governor has closed all banks of the Territory for a week.

KANSAS CITY, October 28.—The Bankers Trust Company has suspended.

PITTSBURG, October 28.—The Stock Exchange remains closed on account of the unsettled financial situation.

ROME, Italy, October 28.—A few fresh shocks of earthquake have been felt in this city and the surrounding country, but little damage has been done by these later quakes. The Pope and the government are aiding the sufferers.

BALTIMORE, Md., October 28.—The British steamer Pampico has been abandoned at sea, and the crew has been saved.

VANCOUVER, October 28.—The Canadian Pacific steamship Empress of China was floated here today.

VIENNA, Austria, October 28.—The condition of the Emperor is very satisfactory.

NEW YORK, October 26.—The savings banks are enforcing the clause in their agreement with all depositors requiring a sixty days notice of the withdrawal of funds. This has prevented much money being withdrawn now from the banks and further embarrassing them in the present situation.

It is probable that the banks will issue clearing house certificates to the extent of fifty million dollars.

NEW YORK, October 25.—The United States Exchange Bank, the First National of Brooklyn and the International Trust Company have suspended. Losses are comparatively small.

The market is firmer. A pool of ten millions has been formed to aid in the Stock Exchange.

PROVIDENCE, R. I., October 25.—The Union Trust Company, with branches in East Greenwich and Central Falls, has suspended.

PARIS, October 26.—Ensign Charles Ullmo, of the French Navy, was arrested yesterday charged with being a spy and with having sold naval secrets. He is a Jew and his offense is similar to that originally charged against Captain Dreyfus, of the army. It is probable that the arrest of Ullmo will bring about another anti-Semitic agitation in France.

ST. PAUL, Minnesota, October 26.—It is reported that the Ute Indians have gone out on the warpath and that in a preliminary clash with the soldiers killed a sergeant.

WASHINGTON, October 26.—The President has issued a proclamation naming November 29 as Thanksgiving Day.

MANILA, P. I., October 26.—Secretary Taft was in an accident today on the Manila-Dagupan Railway. He was not injured.

WASHINGTON, October 26.—President Roosevelt has made known that he approves separate statehood for Arizona and New Mexico.

WASHINGTON, October 26.—Admiral Evans' battleship fleet will depart for the Pacific Coast on December 18.

NEW YORK, October 27.—Calmness has succeeded the panic of the past week in Wall street and a feeling of encouragement is felt throughout financial circles.

The clearing house has decided to issue certificates to lessen the withdrawal of funds from the banks.

Five million dollars in gold has been contracted for in Europe for import into New York.

SANTIAGO, Chile, October 27.—A financial crisis has been precipitated here. Gold has risen to a premium of seventy per cent.

CHICAGO, October 27.—The banks here have decided to issue clearing-house certificates in order to preserve their cash balances. The savings banks are insisting on their rule of requiring a notice of withdrawal of funds on the part of depositors.

NEW YORK, October 26.—The Terminal Bank of Brooklyn suspended today. The stock market closed strong and it is believed the crisis is passed.

TANGIER, October 27.—The army of Mulai Hafid, the rebellious brother of the Sultan, is daily growing stronger and a decisive battle between his forces and those of the government is expected daily.

NEW YORK, October 27.—It has been announced that the candidacy of William Jennings Bryan for the presidency will depend upon the result of the nominating convention of the Republicans.

TOKIO, October 28.—Baron Hayashi, in an interview with a delegate from the San Francisco Japanese colony, assured the delegate that Japanese interests in America would be protected.

It was, he said, thought advisable to limit emigration to 500 monthly, until after the return of Commissioner Ishii, when definite steps would be taken for a solution of the situation.

NEW YORK, October 28.—The feeling of stability is strong. The situation involves solely the currency supply.

Business credit and prosperity are unimpaired.

Many cities adopt clearing-house certificates to preserve the supply of money from being withdrawn from the banks and taken out of the channels of trade.

LONDON, October 28.—Optimism prevails here in regard to the panic, which is generally credited to the manipulations of the gamblers.

WASHINGTON, October 28.—Yesterday was President Roosevelt's birthday. He is forty-nine years old.

BERLIN, October 28.—The New York financial squall is regarded as ended.

PARIS, October 28.—It is here believed that the worst of the financial crisis is over.
